date of move: _____

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This pair of tiny, two-story, two-bay wide brick houses with a late Italianate-style sheet metal, bracketed cornice was built after 1892, when the further use of wooden cornices was prohibited because of the fire hazard. The houses retain their original brick facades, which were always painted.

The houses are two stories in height, only 10' wide and occupy lots 52' deep. Each house is only two rooms deep and there is no backbuilding. The houses are constructed in common bond and were originally painted. Each house has a single hooded chimney located at the rear corner of the house. The shed roofs are capped by a continuous sheet metal cornice consisting of a crown molding framed by long end brackets that connect to a lower molding strip. The frieze area has been covered with aluminum siding.

The tall, narrow window and door openings have splayed brick lintels brick sills. All windows are filled with 1/1 replacement sash. Doorways have a single-light transom and modern replacement doors. The houses sit on low basements, with the entrances being reached by a single concrete step.

Specific dates c. 1895

Builder/Architect

Prepare both a summary paragraph of significance and a general statement of history and support.

This group of houses is significant in that it represents the only survivor of the 800 block of S. Dallas St., the remainder of which was cleared for parking lots. Although not architecturally distinguished or in good condition, the houses are especially significant as being located in the oldest part of Fells Point, only a few blocks from the water, and represent an integral part of the history of this National Register district. Slated for demolition in the 1960s as part of the planned East-West highway connection existing segments of I-95 to the north and south of the city, these houses were saved by local preservation activists who created the Fells Point National Register District in 1969. Until about 1850 Dallas Street was known as Strawberry Alley and its occupants were racially mixed.
